How to study in Germany?

Price: Euro 900 + Application fee: Euro 250

You have finished school? You made your secondary school certificate? But what are you doing now?

Studying in Germany!?! Good idea! Why?

In Germany there are more than 300 universities and universities of applied science and several thousand subjects to study, so that there will be a good choice for each „flavor“, for each talent, for each aim. The universities in Germany are free of fees although they all have high quality and high reputation. This reputation is a door opener for you: in your home country, in the German economy which is still prospering and searching for qualified staff as well as all over the world.

But?

Among such a big number of choices and chances in quite a complex and complicated system of German federal education systems it is not so easy to find the right choice: Are there only the big and famous universities the right ones? What about my chances to get a place there? Do I fulfill the requirements? What about my German knowledge? What documents do I need?

We check your documents if they are complete.
